J418720

**Manufactured and Guaranteed by: Nestlé Purina PetCare Company, St. Louis, MO 63164 USA**

Animal feeding tests using AAFCO procedures substantiate that Purina ONE Skin and Coat Formula provides complete and balanced nutrition for maintenance of adult dogs.

**RECOMMENDED DAILY FEEDING AMOUNTS**

Weight of Dog (lbs)	(kg)	Amount to Feed (cups)
3 - 12	1.4 - 5.4	1/3 to 3/4
13 - 20	5.9 - 9.1	3/4 to 1-1/4
21 - 35	9.5 - 15.9	1-1/4 to 1-3/4
36 - 50	16.3 - 22.7	1-3/4 to 2-1/4
51 - 75	23.1 - 34.0	2-1/4 to 3
76 - 100	34.5 - 45.4	3 to 3-2/3
Over 100	Over 45.4	3-2/3 cups plus 1/4 cup for each 10 lbs (4.5 kg) of body weight over 100 lbs (45 kg)

## ADULT DOG FEEDING INSTRUCTIONS

The recommended feeding amounts indicated are based upon the average nutritional needs of an adult dog with a normal activity level (using a standard 8 oz/250 ml measuring cup, which contains approximately 117 g of Purina ONE). Factors, such as a dog's metabolism, breed size, activity level, age and whether the dog is spayed or neutered, will affect the amount of Purina ONE needed to maintain an ideal body condition. The pet experts at Purina have provided the feeding amounts indicated as a starting point. If you find that your dog is losing weight or becomes overweight when fed these amounts, please adjust accordingly. To help your dog maintain an ideal body condition, monitor your dog's weight on a regular basis, making sure that his ribs are easily felt and his waist is visible when viewed from above. Maintaining an ideal body condition can impact your dog's lifelong health.

## IT'S NOT FOR ALL DOGS

Purina ONE Skin and Coat Formula is specifically formulated for adult dogs. If you have a puppy, or a pregnant or nursing dog, feed Purina ONE Healthy Puppy Formula.

## MAY BE SERVED DRY OR MOISTENED

Purina ONE may be fed dry or mixed with water. If mixed, we suggest one part liquid to four parts Purina ONE.

## FEED ONLY ONE

A dog's digestive system works best when it receives the same food each day. Although humans crave variety in their diets, dogs do not. Feeding different dog foods can turn your dog into a finicky eater. Avoid feeding table scraps, as they can upset the nutrient balance provided by your dog's regular food, and may lead to obesity. The best way to feed your dog is to feed only one dog food each and every day.

## MAKING THE SWITCH TO PURINA ONE

Although you'll be anxious to see the difference Purina ONE can make in your dog, please allow 7 - 10 days to ease the transition from his current food. Each day, simply feed a little less of the previous food and a little more Purina ONE until you're feeding Purina ONE exclusively. This gradual transition will help avoid dietary upsets.

## NO SUPPLEMENTS NECESSARY

Purina ONE provides 100% complete and balanced nutrition for maintenance of adult dogs. There is no need to add vitamins, minerals or other supplements, unless specifically directed by a veterinarian.

## FRESH WATER, PROPER DIET & VETERINARY CARE

Be sure to provide fresh water in a clean container for your dog daily. Proper diet, exercise and veterinary care are the best ways to keep your dog healthy. If your dog hasn't had a check-up in the past year, please make an appointment today.
